November 2023

This page includes important information about the fees and inclusions for the Student Resource Scheme (SRS) in 2024. Once you have signed the participation agreement form your participation in the SRS is assumed for the remainder of your child's enrolment, unless you inform the school otherwise by completing a new participation agreement form.

What is provided by the Queensland Government?

The Queensland Government supports children's education by providing funding for instruction (teachers), facilities (school grounds and buildings, internet), and administration (staff to run the school). Funding for schools does not extend to individual student resources such as textbooks, equipment for personal use, and many items used by the student in the classroom.

The SRS helps parents to source these resources. The school can purchase resources at lower rates due to its bulk buying power. Participating in the SRS also offers a convenient way for parents to source the items that their child needs for school, and ensures that all students have access to the same standard of resources.

The types of resources that will be included are items used in class – e.g. stationery and workbooks. Finished products that are created from these resources will generally come home with the student. Items such as dictionaries and calculators will be provided for use in the classroom setting but will not be taken home. These items will remain the property of the school.

The Booklist

If you are not satisfied that the SRS fee represents good value for money based on the items in the booklist, you may choose not to participate in the SRS. If you choose not to participate, you are required to provide all items detailed in your child's year level booklist.
